

Notice to all Indiana NPDES Permittees

U.S. EPA approves 19th and 20th Editions of *Standard Methods*

The U.S. EPA has approved the 19th and 20th Editions of *Standard Methods for the Examination of Water and Wastewater* for use by laboratories performing testing for NPDES permit reporting purposes. HOWEVER, NOTE THAT NOT ALL METHODS IN EACH EDITION ARE APPROVED FOR USE. To determine if a specific method is approved, consult the current version of 40 CFR 136 (as of this writing the current version is dated 10/23/02). **Permittees may now use either the 18th, 19th, or 20th editions of *Standard Methods* as a reference.**
